Picture Cards

(223 picture cards)

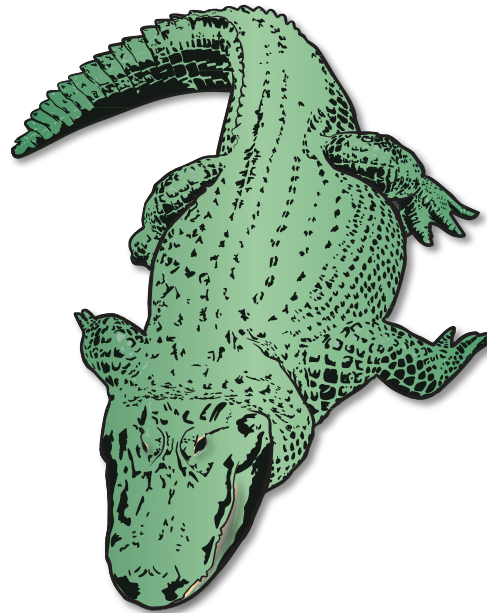

To organize this deck, look for a number in the top right corner of each card. This number corresponds to a letter (A=1, B=2, etc.). The Picture Card dividers indicate both the number and the letter, and list the picture names for each card.

Please familiarize yourself with the identity of each Picture Card as listed. Children must first **hear** the name of each picture spoken aloud by an adult. Children can then focus on the sounds in the words and will not be distracted by guessing picture names.
